Sample stations and prices

We build a Safety Day from modules. Below you will find the most popular stations with indicative prices – you can choose individual attractions or go for a ready-made package. The **Open Space** format works well: stations run in parallel for several hours, and employees (including hybrid workers) drop by whenever it suits them and collect stamps in their **Safety Passport**.

Zone 1 · Road rescue

PREMIUM

Rollover simulator

The vehicle rotates through 360°. An instructor teaches the correct seating position, seatbelt use and how to safely release yourself from the seat while upside down.

from PLN 5,500 net / day

WORKSHOP

Car wreck – helping as an accident witness

Breaking windows, cutting seatbelts with a rescue knife, evacuating a casualty using the Rautek manoeuvre and extinguishing an engine compartment fire.

from PLN 4,000 net / day

Zone 2 · First aid

REALISTIC SIMULATIONS

Bleeding and mass casualty injuries

Wound simulations with artificial blood pumped from a reservoir. Applying tourniquets and packing wounds with haemostatic gauze.

from PLN 3,500 net / day

MUST-HAVE

CPR, AED and choking

Manikins with QCPR (feedback on compression depth and rate), training with an AED defibrillator, and Act Fast vests for learning the Heimlich manoeuvre.

from PLN 2,500 net / day

Zone 3 · Fire training ground

LIVE FIRE

Live-fire extinguisher training

An eco-friendly, gas-fired fire simulator – every participant puts out a fire themselves with a powder and a CO_2 extinguisher under an instructor's supervision.

from PLN 3,000 net / day

EVACUATION

Smoke tent

Evacuation through dense, safe stage smoke with zero visibility – using fixed reference points.

from PLN 3,000 net / day

FOR EVERYONE

Central demonstrations

Cooking oil fire doused with water (a fireball several metres high) and extinguishing lithium-ion batteries (phones, laptops, e-scooters). Usually 2 demonstrations a day.

from PLN 3,500 net / 2 demonstrations

PREMIUM OPTION

Fire engine

A presentation of a fire engine and its equipment, a roof monitor demonstration and the chance to operate a water jet from a fire hose yourself.

from PLN 8,000 net

Zone 4 · VR and sensory education

INNOVATION

VR Safety station

Virtual reality goggles and interactive scenarios: spotting fire hazards in the office, responding to an alarm, extinguishing a fire in VR.

from PLN 3,000 net / day

PREVENTION

Obstacle course in drunk and drug goggles

Simple agility tasks in goggles that simulate impaired vision, distance judgement and coordination under the influence of substances.

from PLN 1,500 net / day

Ready-made packages

OFFICE

Start Package

from PLN 9,900

net · up to 50 people

- Live-fire extinguisher training
- CPR, AED and choking

from PLN 30,500

net · up to 100 people, with a coordinator

- All 4 themed zones
- Rollover simulator + car wreck workshop
- Central demonstrations
- At least 5 certified instructors (firefighters, paramedics, OHS specialists)
- Equipment transport and logistics
- Optional fire engine: +PLN 8,000

Good to know: the prices are indicative and do not constitute a commercial offer within the meaning of the Polish Civil Code. Prices are net – 23% VAT applies. For a larger number of participants we add approx. PLN 45 net for each additional person (medical supplies, gas, extinguishers, certificates). For single stations we add travel and coordination costs – we prepare the final quote after a short conversation about the number of participants, location and date. The organiser provides: a hardened area (for the wreck, simulator and fire engine), access to water and 230 V power.
